Cat. No. 156404 - Small [5" (51mm) overall with 1-1/4" (32mm) blades]

Cat. No. 156403 - Large [7-1/2" (190mm) overall with 2-7/8" (73mm) blades]

VITRI-FUSAILLE TECHNIQUE DVD

Cat. No. 6253

Peter McGrain introduces an entirely new technique for glass painting. This new technique combines the multi-stage process of traditional glass painting with modern day fusing. Peter's step-by-step program is easy to follow. He provides the color with cut pieces of colored glass butted together and fused, thereby eliminating the lead or foil lines. Any gaps are masked with paint. The end result is surprisingly striking.
