CATCH THE LIGHT

Cat. No. 60176

Paned Expressions Studios. Over 90 smaller patterns for holiday and everyday. Includes corner treatments, suncatchers, fan lamps, and lightcatchers.

FUSED GLASS ART AND TECHNIQUE

Cat. No. 703651

La Londe. 224 page hardback. In our opinion, the best fusing book since "Fusing One", by Schwoerer and Lundstrom. Includes the history of glass fusing, a portfolio selection on Richard La Londe's art, the technical aspects about glass fusing, 50 pages of techniques and much more. Features 475 photographs.

GLASS PRO® PUTTY

Glass Pro® Putty is a new outstanding fast-setting black colored stained glass cement designed for strengthening and waterproofing leaded glass panels. It is better than regular putty and more economical than competitive cements. Also, it cleans up easily with whiting. It's a ready to use oil-based elastic compound that is easily applied. It adheres tenaciously to came and glass, expands and contracts with weather, and forms a tough surface coating while remaining permanently elastic. Apply at temperatures above 40°F (4.5°C).

This product may contain Crystalline Silica known to the State of California to cause cancer.

Cat. No. Description

- 520406 1/2 pint black
- 520407 1 quart black
- 520408 1 gallon black

ITEM	Cat. No.
ADJUSTABLE PIN VISE	15395
TUNGSTEN ROD 3-1/4" x 3/32"	15396
