KILN LINER™ FUSING RELEASE PAPER Techniglass Co.

Cat. No. 482260 - 20.5" x 20.5" sheet (521mm)

Cat. No. 482261 - 41" x 250' roll (1041mm x 76 mtr.)

An easier and quicker way to prevent glass from sticking to kiln shelf at full fusing temperatures. Reduces prep time since there is no need to use a primer. Achieve exceptional separation from a single layer of paper. Reduce air bubbles from the circulation the paper allows. Reduce breakage that is caused by unevenly applied shelf primer by using KILN LINER™ Fusing Release Paper. Sold by the sheet or on a roll (854 sq.ft. total). Approx. .005" thick. (.127mm).

UROBOROS SYSTEM 96 CONFETTI - 4 OZ. JARS

Celebrate! The most requested System 96 product has arrived! You asked for it - we've made it just for you - Blown Glass Confetti in 10 great single colors and a Mini Mardi Gras Mix - when one color at a time won't do. Start a party in your kiln!
